Why the switch?

Using this service will make the quoting process easier for us and our suppliers. The Public Purchase e-Procurement System was designed exclusively for use by Government Agencies and their Vendors.

Benefits to Us:

This eProcurement system is compliant with all Federal and State regulations, which determine the required procedures for Government Agency purchasing practices. This service will also create an up-to-date vendor database, which will be hosted on Public Purchase's servers and will allow suppliers to easily update and change their information as needed.

What Benefits You?

This e-Procurement system will create a single location in which to view open Requests for Quotation and award information for previous RFQ's issued through the Public Purchase website. This system will also provide you with automatic notification and transmittal of bid solicitations to vendors. In addition, Public Purchase gives you access to bid opportunities with other government entities. ***All of this is provided at no charge to you.***
